New CMAQ Funding

AMATS received fifteen CMAQ applications requesting over \$45 million in funding. The projects have been analyzed and partially scored by Amy Prater and myself. However, a final ranking is not complete because one of the scoring categories called “cost effectiveness” is scored after all the projects are received statewide. The projects were submitted to the statewide CMAQ chairman on Friday September 8<sup>th</sup> and will be discussed in detail when the statewide committee meets on September 22<sup>nd</sup>. The final list of statewide projects selected should be ready in November.

TAC TIP Subcommittee

The TAC TIP Subcommittee will meet on Tuesday September 19<sup>th</sup> at 9:30 at our office. By that time the scoring of the CMAQ projects should be firm and a final ranking will be ready. One of the other items we will be discussing is the level of over programming needed to prevent large balances at the end of a Fiscal Year.

Funding Program and Balances

We currently have a balance of over \$6 million in STBG funds in FY 2018. This balance originated when Seiberling Way Phase 1 was moved from FY 2017 to FY 2021. ODOT borrowed \$4 million latter in FY 2017 that reduced our balance but now it has been repaid. If anyone has any project that can be advanced into FY 2018 please let us know. Otherwise we will work on finding another MPO that needs a loan.

New STBG and TASA Projects

A new round of STBG (STP) and TASA (TAP) funding will begin Monday September 25<sup>th</sup>. That is the day that AMATS will post the applications on our website. They will be due on Tuesday October 31<sup>st</sup> but please try to return them as soon as you can so we can review the projects and begin scoring them. There will be no Letters of Intent due this time. Please remember that our revised Funding Policy Guidelines will apply to this funding cycle. Don't hesitate to call us if you have any questions about completing an application, we will be glad to assist you.

**RE:** Resolution 2017-10R – Approving Amendment #2 to the Transportation Improvement Program FY 2018-2021 – Rescheduling Projects to FY 2018 for METRO RTA and PARTA - REVISED

**DATE:** January 12, 2017

Executive Summary

This memorandum discusses an amendment to the FY 2018 program of projects for METRO RTA and PARTA to reschedule existing projects. The project descriptions and funding remain the same for all of the projects discussed below.

METRO RTA is requesting the following changes to the TIP:

**- Reschedule Capital Funds for the Purchase of 8 Large Buses (PID 94960)**

This project provides for the purchase of eight large buses. Originally scheduled for FY 2017, METRO is requesting that this project be rescheduled to FY 2018 of the current TIP (FY 2018-2021). The project will be funded at 80% federal share. The federal funds for this project remain the same at \$2,880,000, with a total project cost of \$3,600,000. Federal funds are derived from the Federal Transit Administration (FTA) Section 5307 and 5339 programs.

**- Reschedule Capital Funds for the Purchase of 12 Small Buses (PID 94962)**

This project provides for the purchase of twelve small Compressed Natural Gas (CNG) buses. Originally scheduled for FY 2017, METRO is requesting that this project be rescheduled to FY 2018 of the current TIP (FY 2018-2021). The project will be funded at 80% federal share. The federal funds for this project remain the same at \$1,008,000, with a total project cost of \$1,260,000. Federal funds are derived from the FTA Section 5307 Urbanized Area Formula Program.

**- Reschedule Capital Funds for the Purchase of Support Equipment (PID 94967)**

This project provides for the purchase of support equipment (shelters and benches) for bus stop enhancements throughout the METRO service area. Originally scheduled for FY 2017, METRO is requesting that this project be rescheduled to FY 2018 of the current TIP (FY 2018-2021). The project will be funded at 80% federal share. The federal funds

for this project remain the same at \$65,000, with a total project cost of \$81,250. Federal funds are derived from the FTA Section 5307 Program.

**- Reschedule Capital Funds for Preventive Maintenance (PID 94966)**

This project provides for the capitalized cost of preventive maintenance. This project is intended to maintain METRO's vehicle fleet, as well as their bus facilities and transfer locations. Originally scheduled for FY 2017, METRO is requesting that this project be rescheduled to FY 2018 of the current TIP (FY 2018-2021). The project will be funded at 80% federal share. The federal funds for this project remain the same at \$5,612,096, with a total project cost of \$7,093,750. Federal funds are derived from the FTA Section 5307 Urbanized Area Formula Program, as well as ODOT-attributable Surface Transportation Block Grant Program (STBG, formerly STP) funding awarded by ODOT. This funding program is administered by the Federal Highway Administration (FHWA). The funds will then be flexed over to the Federal Transit Administration (FTA) for METRO's use.

**- Reschedule Capital Funds for the Purchase of Vehicles and Equipment for Elderly and Disabled Transportation (PID 104055)**

This project provides for the purchase of vehicles and accompanying electronic equipment for the transportation of the elderly and disabled. Funds were awarded to METRO, United Disability Services (UDS) and Hattie Larlham by the AMATS Policy Committee in September 2016. METRO, as a designated recipient of FTA Section 5310 funding, requests that this project be rescheduled from FY 2017 to FY 2018 of the current TIP (FY 2018-2021). The project will be funded at 80% federal share. The federal funds for this project remain the same at \$930,314, with a total project cost of \$1,162,893.

PARTA is requesting the following changes to the TIP:

**- Reschedule Capital Funds for the Purchase of Two Large CNG Buses (PID 102310)**

Funds for this project were originally awarded in 2015, but were delayed pending the construction of PARTA's Compressed Natural Gas (CNG) fueling facility. This project is intended to update a portion of PARTA's vehicle fleet to CNG. PARTA is requesting that this project be rescheduled from FY 2016 to FY 2018 of the current TIP (FY 2018-2021). The source of these funds is ODOT-attributable Congestion Mitigation and Air Quality Improvement Program (CMAQ) funding awarded jointly by ODOT and Ohio EPA. This funding program is administered by the Federal Highway Administration (FHWA). The funds will then be flexed over to the Federal Transit Administration (FTA) for PARTA's use. The project will be funded at 80% federal share. The federal funds for this project remain unchanged at \$830,000, with a total project cost of \$1,037,500.

**- Reschedule Capital Funds for Bus Stop Improvements (PID 99294)**

This capital project is designed to provide improved pedestrian access to PARTA bus stops in Portage County. PARTA is requesting that this project be rescheduled from FY

2017 to FY 2018 of the current TIP. The federal funds for this project remain at \$33,000, with a total project cost of \$41,250.

## **STAFF COMMENTS**

As with all TIP amendments, considerations with respect to consistency with the Regional Transportation Plan, financial capability, air quality conformity, public involvement, and environmental justice are important.

### **Regional Transportation Plan**

The projects proposed in this amendment are consistent with *Transportation Outlook*, the area's Regional Transportation Plan.

### **Financial Capability**

With respect to financial capability, there are sufficient funds available for this amendment.

### **Air Quality**

The projects can be viewed as either exempt from air quality or have been analyzed as part of the air quality networks and has resulted in a finding of compliance with the Clean Air Act. Therefore, this amendment will not affect adversely the air quality conformity approval of *Transportation Outlook* or the TIP.

### **Public Involvement**

The Staff is recommending that the Policy Committee consider this action as not regionally significant. As a result, the modified procedures in the AMATS *Public Participation Plan* are appropriate.

### **Environmental Justice**

*Executive Order 12898: Federal Actions to Address Environmental Justice in Minority Populations and Low Income Populations* states that, "each federal agency shall make achieving environmental justice part of its mission by identifying and addressing as appropriate, disproportionately high and adverse human health or environmental effects of its programs policies and activities on minority and low-income populations." This requirement also applies to recipients of federal funds, such as METRO RTA and PARTA.

The projects that will result from this TIP amendment do not appear to impose disproportionately high and adverse human health or environmental effects on minorities and/or low-income people who reside in the METRO or PARTA service areas.

## **STAFF RECOMMENDATION**

Attached to this memo is Resolution 2017-10. This resolution approves the requested changes to FY 2018 of the TIP as described above. The Staff recommends approval.

**RE: Resolution 2017-11 – Approving the FY 2017 Year End Completion Report**

**DATE: September 6, 2017**

This memorandum discusses the status of activities and expenditures for transportation planning in the Akron Metropolitan Area for the state fiscal year ending June 30, 2017. The purpose of this resolution is to approve the Fiscal Year 2017 Year End Completion Report for transmittal to ODOT.

Each year AMATS prepares a Transportation Planning Work Program that is the basis for federal financial assistance for planning. ODOT requires AMATS, following the close of each fiscal year (June 30), to review the previous year's Work Program and compare the scope of work that was originally proposed to that which was completed. Completion of the Work Program is a prerequisite for certification of the planning process. This memorandum summarizes the Fiscal Year 2017 Year End Completion Report. The planning work necessary for FY 2017 was completed, and the expenditures were within the budgeted amounts. All items were completed by the end of the fiscal year on June 30.

Upon approval, this report will be submitted to the Ohio Department of Transportation (ODOT).

Attached is a financial summary of the Fiscal Year 2017 Year End Completion Report for all of the work elements scheduled during FY 2017. A number of significant products and activities were completed during FY 2017. These include:

1. Developing a new Transportation Improvement Program (FY 2018-2021)
2. Participation in the Statewide CMAQ Discretionary Program
3. The management and coordination of federally-funded projects
4. Developing a Financial Resources Forecast for the Regional Transportation Plan
5. Producing a new Congestion Management Process (CMP) Report
6. Approving a new 2040 Regional Transportation Plan
